

SAKA PETROLEUM

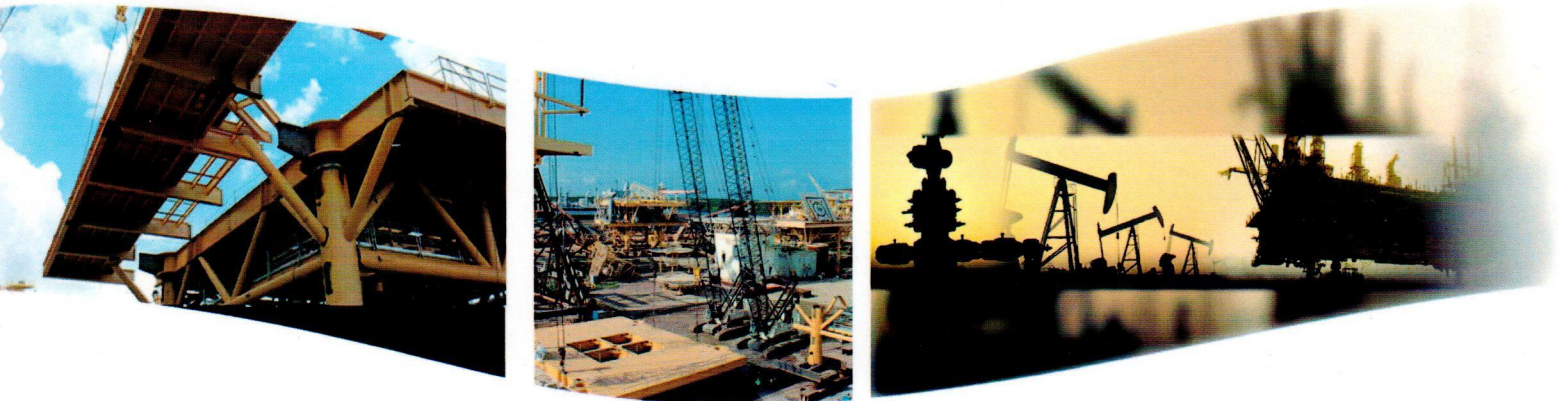

YOUR LINK TO THE OIL & GAS WORLD

Profile

SAKA Petroleum, incorporated in 2011, is an EPC Contractor in Oil & Gas and Petrochemical Industries. We are capable to render a wide range of upstream and downstream services, from design and engineering through procurement, drilling, construction and commissioning both onshore and offshore. Moreover, SAKA is now performing as a business developer and financier.

Our focus is on client satisfaction and building a long term & solid business relationship. Safety, quality, reliability and prompt service are our hallmarks. The Company is committed to continuous improvement of the efficiency by encouraging teamwork and creating a positive work environment.

Our Services

Procurement

- Sourcing
- Supply Chain Management
- Material Supply
- Expediting & Logistics
- Inspection

Drilling Services

- Management and Execution of Oil & Gas Drilling Projects
- Providing Down Hole Tools and Rock Drill Bits
- Jack-up Maintenance, Repair and Marine Operation
- Drilling Operation

Management

- EPC & Package Management
- Project Management
- Management Consultancy
- Integrity Management
- Regulatory Support & Due Diligence

Engineering

- Field Development Planning
- Conceptual Design & FEED
- Detailed Engineering
- Commissioning Engineering

Construction & Installation

- Installation Management
- Construction Management
- Pre-Commissioning and Commissioning
- Installation of Offshore and Subsea Structures
- Fabrication and Erection

Our Mission is to deliver safe and successful energy projects for the benefit of our stakeholders. We maintain that focus whether faced with the biggest of challenges or the smallest of details. Take it further is our approach to business, partnerships and aspirations. It embodies our spirit and our outlook. It is the message we want to convey through our words and above all our actions. It is the essence of SAKA, making us unique.

Our Vision is Meet the world energy challenge through our projects. Today and tomorrow, we work with our clients, wherever they are, to bring energy to the world. We will continue to contribute to their success through our constant customer focus and our integrated and sustainable project approach. As the industry reference, we will demonstrate the Know-how, the commitment and the inspiration to help all of our partners push further to achieve their goals. This is our vision of our business and above all our passion.

Quality Policy

SAKA aim to be a pioneer in the oil & Gas industry by creating maximum value for its clients and by protecting its employees and the preparation and management of tenders, projects and contracts it executes. At SAKA, quality is driven from the top but delivered by every individual. We will continuously improve our services and process using clearly defined methodologies and making data based decisions.

Technical Services & Design

We deliver a quality product with engineering expert who design with a focus on safety, cost, constructability and operability. We think it is important that engineers follow the project through to site and take an active role in construction and commissioning, to ensure smooth start-up and operations.

- Process Studies
- Material Balance
- Process Flow Sheets
- Plot Plan
- Piping and Instrument Diagram
- Sizing of Main Equipment
- Specifications
- Definition of Control and Safety Devices
- Mechanical Data Sheets of the Equipment
- Preparation of Tender Packages
- Elaboration of the Piping, Instrument, Electrical and Civil Works Layouts
- Piping Isometrics and Stress Calculations
- Management of Vendor Drawings
- Cost and Schedule Control
- Start-up Procedures

Procurement

Procurement at SAKA is a key element in the execution of any project which managed by a force individuals assigned to project task forces. They are in charge of sourcing new suppliers, buying, expediting orders, inspecting the manufacturing of equipment and bulk material as organizing delivery and logistics.

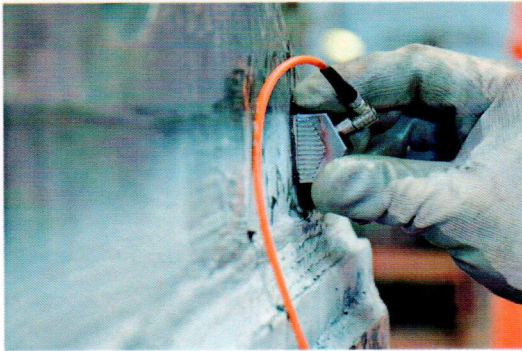

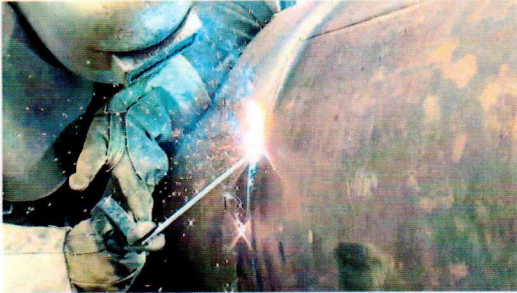

Mission of SAKA Procurement Organization is:

- Develop and Implement Procurement Strategies to Improve Competitiveness
- Own and Update List of Approved Suppliers
- Increase the Supplier Base through the Sourcing and Qualification of New Suppliers and Product with a Focus on High Value Procurement Countries
- Develop and Manage Long-term Relationships and Partnerships with Top Suppliers
- Promote Design-to-Cost Solutions
- Gather and Report Information Critical to Operations

Fabrication & Erection

We have the expertise and capacity to handle challenging assignments and turnkey fabrication and erection projects. The fabrication teams at SAKA are fully ready to mobilize at the worksites wherever is asked by the Clients.

- Steel Structures and Pipe Racks
- Offshore Structures and Bridges
- Piping Ducts, Silos and Tankages
- Pressure Vessels, Column, Boiler, Turbine and Skids
- Stacks, Columns and High Rise Towers
- Pipeline Projects
- Electrical and Instrumentation Installation and Cabling
- Painting, Insulation & Refractory Works

Pipeline Services

The pipeline services provided by SAKA are applicable for Onshore and Offshore Pre-commissioning, Commissioning, De-Commissioning, Pipeline Inspection, Rehabilitation, Maintenance and other related services:

- Cleaning
- Gauging
- Flooding / Filling
- Calliper Survey
- Hydro testing
- Drying
- Nitrogen Purging
- Decommissioning
- Pipeline Inspection
- Chemical Cleaning & Flushing
- Leak Testing

Marine Installation

SAKA can provide all aspects of underwater engineering and project management as well as the more routine diving services. Our main strengths are our flexibility and our ability to deliver projects safely, on time and to complete satisfaction of Client's with best quality. SAKA offers a professional, prompt and efficient:

- Subsea Construction Works
- Subsea Pipeline Works
- SBM & SPM's
- Submarine Fiber Optic Cable and Composite Cables
- Underwater NDT Work
- Underwater Vessel Inspection & Support Work
- Remotely Operated Vehicles (ROV)
- Civil Construction Works
- Diving Equipment Rentals

Drilling Services

In the upstream sector of Oil and Gas Industries, we are dedicated to provide our Clients with a wide range of drilling services including engineering and procurement. We are able to provide divers drilling services via our partners:

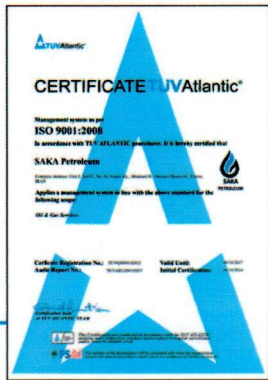

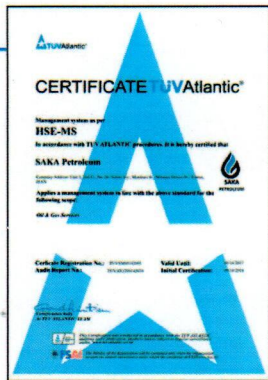

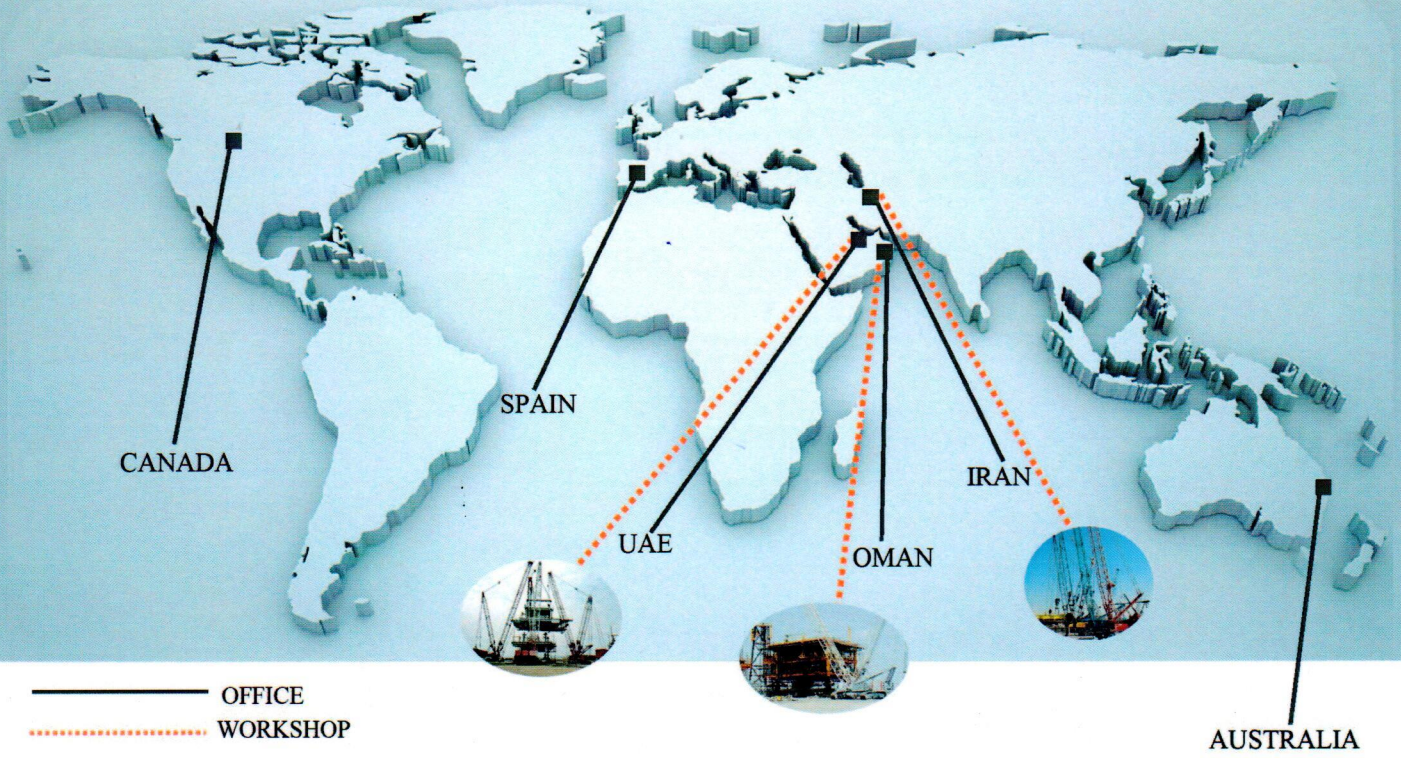

- Casing Running Services
- Directional Drilling Services
- Cementing and Acidizing Services
- Geophysical and Geotechnical Survey
- Coring Services
- Drilling Fluid Services
- H2S Safety Services
- Logistics Base Services
- Mud Logging Services
- Well Testing Services
- Electrical Logging Services
- Technical Support

The tools that can be provided are:

- Pressure Control Equipment
- Production Testing Equipment
- Down Hole Drilling and Fishing Tools
- Surface Drilling Equipment
